MEYER & KISER STOCK PRICES DECLINE

FINANCIAL COMMUNITY WORRIED OVER PROPOSED RATE WAR.

General Tendency of Market Yesterday Was Downward-Commission House Business at a Standstill.

NEW YORK, Feb. 17 .- The frequenters of the Stock Exchange changed their position in the market to-day and sold stocks, in contrast to the buying of yesterday. Or rather the party which bought yesterday had not courage to Swift & Co., continue their operations, while their opponents, who had sold at the advance yesterday, saw a profit in offering down prices, and proceeded

They had rather more success in maintaining the declines to the end of the day than did the bulls yesterday in holding the advances. The extreme duliness of the market and the poignant complaints of all commission houses of lack of sufficient business to pay office expenses warrant the assumption that operations are exclu-

While various news items of the day are offered to explain the varying moves of prices, it is clear that the movements represent the ideas of professional traders as to the change in values resulting from occurrences rather than actual transactions in liquidation or in invest-

In to-day's market the influence which received nost attention and discussion was the rate war on export grain rates, especially that phase of it that concerns the lake traffic from Buffalo. As the dispute is wholly in regard to the making of contracts on business yet to come, the acrimony displayed is the more remarkable. Fears of a coming depression in railroad traffic and in general business are thus inspired. The firmness with which the oposing contenions are maintained on the comparatively unimportant matter of the differential on export rain rates from Buffalo to Philadelphia and Saltimore, as against New York, causes heed be paid to threats that retaliation and reprisal may carry the war to freight or other classifications and to other destinations. So much has been done of late years to neu-

tralize the control of the old rate disturbers in trunk-line territory that the involvement of the two principal lines gives a decided chill to speculative sentiment. Some effect on stocks was also produced by the whispers sent around that the heavy drop in cotton and consequent speculative losses were cotton and consequent speculative losses were going to result in financial troubles. These rumors were without verification. The difficulties of some of the insurance companies involved tected. The last hour of trading was marked in the Baltimore fire awakened attention to the possible aftermath of that calamity. into Thibet, and foreign stock markets seemed o be moved by news of an Albanian revolt. Whatever share these various incidents may ave had in the day's decline, it was obvious that many operators were prompted mainly by the consideration that yesterday's attempt to lift prices had proved abortive, so that a movent downwards was most available. The bond market was very dull and heavy. otal sales at par values were \$1,240,000. United

states bonds were unchanged on call.

[A. W. Thomson.] NEW YORK, Feb. 17 .- Foreign cables reported London and other markets were practically at a to 871/2c. standstill and that stagnation prevails in all departments, owing to a general disposition to wait for war developments. Our market here opened irregular and the tone was decidedly heavy. The trading was small in volume and fractionally up to the moon hour, when the tone was confined to floor traders. There was slight pressure in Brooklyn Rapid Transit. The sales were attributed to the pool. London was a very moderate seller. Prices continued to shade off became more steady. Erie was pressed for sale. The source of the selling could not be traced. It is said that the 25 per cent, synchrate call would bring some long stock. Much talk was inculged in regarding rates in the West, but we think the reports about cutting grain rates are largely magnified. The market closed dull, but showing a slight tendency to improve.

[Meyer & Kiser.] NEW YORK, Feb. 17 .- Despite the dullness marked reactionary tendency developed in the off considerably. There was no strength displayed at any point and the developments of activity by the bearish contingent would have undoubtedly caused a severe slump. As it was activity was restricted principally to the first hour and to about seven stocks. The early undertone of steadiness was apparent. The Germany contributed a story that the Russian | sional and there seemed to be a holiday feeling government was taking a saiff attitude towards on the floor of the exchange. Sentiment was the British government regarding the expedition | depressed, and the market was about as uninteresting a proposition as could well be imagined. Some of the active stocks in to-day's trading were Amalgamated Copper, Atchison, Brooklyn Rapid Transit, St. Paul, Pennsylvania, Erie and Baltimore & Ohio. Copper maintained a fairly steady tone throughout and its loss was less than most of the other active stocks. Brooklyn Rapid Transit, in spite of obvious pool support, declined easily. St. Paul lacked resisting power. The selling of Erie was the feature of the market and it seems only now that the extent of the decline in the earnings of the company are being appreciated. Pennsyl mia exhibited some good buying, but no specific rength. Steel preferred held fairly well. Comssion business was at a complete standstilli. ensolidated Gas lacked the interesting features at it displayed during the past few days. altimore & Ohio seemed to be affected by erman selling. The bond market to-day was ill and heavy. Extreme dullness prevails in e monetary situation and rates are practical-

unchanged. [Porterfield & Co.] NEW YORK, Feb. 17 .- The stock market toay was a repetition of the last few days and bout all that can be said of it is that it opened nd then it closed. The initial quotations were mor of a probable conflict in the Balkans, hich, of course, was nothing more than a ondon story put out for effect. It passed unoticed as did everything else, and the transtions were mostly confined to the room aders, who chased eighths and quarters to ake spending money. The market was very all for the general list. Copper opened strong, id down a cent, then rallied % and held most it to the close. Pennsylvania was next in tivity, opening %c under last night's close, old off % more, and regained half of it before ie close. Erie was weak from the start and sold down from 25% to 24%, with a lower tendency at the close. The grangers were all lower than yesterday and may sag still more from all appearances. The balance of the list shows the effects of a general apathy on the 62% part of the trading public, which may carry the market somewhat below present quotations, but wise folks are picking up bargains these days and many of the dividend-payers certainly look

tempting at current quotations to the patient [A. R. Thompson & Co.] NEW YORK, Feb. 17 .- An excellent opportunstandard railroad list, particularly Southern Pacific, Union Pacific, Rock Island, Baltimore & believe that these stocks are being accumulated scale and without bidding for them. This kind | Oatsof buying reduces the floating supply of stocks 46% and prepares for a good advance later on. The selling of to-day was almost entirely on the part of the professional room crowd, which changes its position very suddenly and seldom operates for more than a point or two. The market shows no sign of liquidation and will soon become over-sold again. This continual driving down of prices with time money so easy-it shows a further softening to-day-is putting the market into splendid shape for a substantial recovery by the shorts alone. The bears will not dare to become aggressive with money easy. The outlook, on account of the heavy pension payments, is for an increase in the surplus reserve in the banks on Saturday, and the professionals will probably get ready to discount it soon. One of the chief reasons large interests are agreeable to carrying stocks now is that it costs less than a year ago, when prices were so much higher and money Amalgamated Copper 39,500 491/2 48 481/4 Amer. GRAIN GOSSIP.

A. W. ("Sandy") Thomson .- Wheat market in Chicago on Wednesday closed 1c to 1%c higher than on Tuesday. Market early showed weakness, but gained strength on rumor of strife between Turkey and Bulgaria. If this should result in actual war our market is in a shape to boom easily. If it falls through, I look for a scalping market, and think wheat for the present can be sold on rallies and bought on breaks for moderate profit. Corn closed about %c higher than on Tuesday It, too, was weak on early trading, but quickly responded with strength in wheat. I feel friendly to corn and recommend its purchase on soft spots. May, July or September corn, near 50c, is to my mind a good investment. Provisions gained most of the loss made Tuesday and closed strong. Prices may sag some for a short time, but by the middle of March ! look to see something doing in pork and ribs. Buy them on the breaks.

COTTON FUTURES

NEW YORK, Feb. 17.-The cotton market and for a time showed further firmness, with stronger cables than expected, light estimates for the day's receipts and continued bullish advices as to the attitude of spot holders. heavy sellers, room shorts became encouraged and prices were worked downward to a level about 30@38 points under the best figures of the morning. Then there was a rally of several points on receipt of the small estimates for tomorrow's receipts at New Orleans and Galves-ton, which led to a readjustment of estimates for the week's "into sight," which is now being placed at 160,000 bales, against about 191,000 bales last year. In spite of this, however, and in spite of continued bull support, the public did not seem to take hold, and shortly after midday there was a renewal of bear pressure that broke the market through the low point previously reached and within a point or so of yes-IN RECEIVER'S HANDS terday's closing figures. This was followed by a regular and less wide fluctuation, with sentiment evidently nervous and trading for the most part representing nothing more than the efforts of the professional scalping contingent to secure fractions of the profits, until just before the close, when the market became very active and excited. The local bull leader began bidding very aggressively, taking large blocks, particuof May, and the entire list railled sharply,
